Dear **{First Name}**,

I know that we've had countless conversations about golf over the years, but I'm excited to tell you about my support of [Youth on Course](#), a 501(c)3 nonprofit that provides access to life-changing opportunities through golf by removing the cost barrier to play. Check out other ways they provide opportunities for youth on and off the course [here](#). Their largest fundraiser of the year is the [Youth on Course 100 Hole Hike](#) - where participants will play 100 holes of golf, walking, in a single day to support these young members. New this year, Hikers can Hike as a team to split up how many holes they play. I'm taking on the challenge this year.

You and I both know how impactful golf is on the lives of those who play it. I've seen the impact firsthand of what being on the course does for young people's confidence, purpose, and sense of belonging. That's why I'm taking on this challenge and making Youth on Course my one major charitable initiative for 2024.

Ex. 1: 100 holes in a day seems impossible but with your support, I know I can do it. I'm committing \$xxx, would you be willing to match me? Click **{ENTER HIKE PAGE LINK}** to see my Hike Page and donate!

Ex. 2: 100 holes in a day seems impossible but with your support, I know I can do it. Would you be willing to join in supporting by donating \$xxx? Click **{ENTER HIKE PAGE LINK}** to see my Hike site and donate!

Ex. 3 When I hit my goal of raising (10,000, 1,000) those who donated to my Hike will help me provide over (1,400, 140) rounds of golf for young people. That is a lot of lives changed and impacted!

Any support is greatly appreciated.

Wish me luck,
{YOUR NAME}

Dear **{First Name}**,

Have you heard me talk about how I support young people through a nonprofit called [Youth on Course](#)? They are an international 501(c)3 nonprofit that provides access to life-changing opportunities through golf by removing the cost barrier to play. Check out other ways they provide opportunities for youth on and off the course [here](#). I have seen the results myself and it is inspiring. I hope you can help too.

One of Youth on Course's great fundraising initiatives is the [100 Hole Hike](#) where supporters play 100 holes of golf, walking, in one day to raise money for their mission. It is an extremely difficult challenge, but in 2023 they raised over \$2 million from Hikers around the country. **I have decided to take on the challenge this year.**

That money raised will help provide more than 280,000 subsidized rounds of youth golf by over 190,000 Youth on Course members. At Youth on Course, access to golf is making an impact, and it continues to grow at record numbers.

Now more than ever, it is important for me to help the next generation and this is an initiative that can make that happen. I have set my goal for \$xxx and ask you to consider contributing \$xxx (fully tax-deductible) to help me get there. Here is the link **{ENTER HIKE PAGE LINK}** to my page and to make your contribution. I will keep you posted along the way and celebrate our success at the end.

Thanks for your support,
{YOUR NAME}

Hi **{First Name}**! I've decided to take on the Youth on Course 100 Hole Hike this year - playing 100 holes of golf in one day. To learn more about the organization and this initiative visit: <https://youthoncourse.org/>. Part of the challenge is fundraising to provide Youth with affordable access to golf. Would you consider supporting me? You can find my Hike Page and donate to my Hike at **{ENTER HIKE PAGE LINK}**. Thanks!
